

NYC MESH

Community-based Internet

WHO IS NYC MESH?

NYC Mesh is a volunteer-run nonprofit building fast, affordable, reliable, and community-owned internet for New York City.

WHAT DOES IT COST?

Equipment is a one-time setup cost (flexible payment options available). Then \$20/month suggested to support the network. No contracts. No disconnections.

HOW TO SIGN-UP?

Visit the website nycmesh.net

TLDR

we set up internet for people in
nyc that won't get shut off

A neighbor in your building is
connected or interested in connecting.

@nycmesh

How does NYC Mesh work?

NYC Mesh uses rooftop wireless antennas to link buildings together, forming a network. We connect directly to the Internet in several data centers throughout the city, allowing us to bypass the corporate ISPs to offer faster, more reliable, and more affordable internet access to our members.
